The MPEP states:

### **2001.06(c) Information From Related Litigation [R-2]**

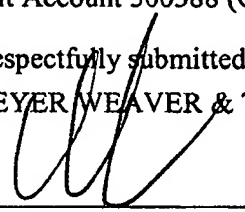

Where the subject matter for which a patent is being sought is or has been involved in litigation, the existence of such litigation and any other material information arising therefrom must be brought to the attention of the U.S. Patent and Trademark Office. Examples of such material information include evidence of possible prior public use or sales, questions of inventorship, prior art, allegations of "fraud," "inequitable conduct," and "violation of duty of disclosure." Another example of such material information is any assertion that is made during litigation which is contradictory to assertions made to the examiner. *Environ Prods., Inc. v. Total Containment, Inc.*, 43 USPQ2d 1288, 1291 (E.D. Pa. 1997). Such information might arise during litigation in, for example, pleadings, admissions, discovery including interrogatories, depositions, and other documents and testimony.

The relationship between the subject patent application and the patents in suit is shown in the attached chart entitled "IGT/ACRES P289/AC001." Applicant believes it is possible that information material to the subject application may arise in the course of the above-identified litigation. Thus, the purpose of this disclosure is to bring to the attention of the Patent and Trademark Office the existence of the litigation so that the Examiner in the subject application can make an independent inquiry into the litigation if the Examiner deems it necessary. It is Applicant's intent to disclose any material information that may arise in the future from the disclosed litigation.

It is believed that no fees are due in connection with the filing of this Information Disclosure Statement. However, if it is determined that any fees are due, the Commissioner is hereby authorized to charge such fees to Deposit Account 500388 (Order No. IGT1P289R1).
